Overview

With experience studying at University of Technical Education - University of Danang, majoring in Information Technology, i am very much looking forward to becoming a Front-End Developer. Having a solid knowledge of HTML, CSS, JAVASCRIPT, REACTJS(Next js) and other skills that i hone daily. In the next year, I want tobecome a full-fledged developer on the way to workand accompany thecompany which can help me develop myself as well as contribute a lot tothe development of the company.
